

## Never said goodbye

Summer cast a winsome smile so strong a head keeps spinning  
I was ready for everything fate would throw me in  
And you were look outside your window as I slowly walked on by  
From this moment the gods were playing dices

I was just a small town outlaw you`re a lady in the first degree  
Your daddy didn`t want me to steal your heart away  
But nothing in this world could ever stop a fire like this  
Our love was save and winged our love was blessed

Girl I want you to know that you`re still on my mind  
And I wonder whereabout your dreams flying out tonight  
And I wish we`ll meet us once again just for a little while  
After all we never said goodbye

I could call up many nights she took my breath away  
Melting with a kiss making love so intimately  
As she nestled up my shoulder whispered sweetest words  
I believed that love would last never ever hurts

The years passed by the tears went dry live didn`t make much of a rest  
I`m still an outlaw writing songs I guess that`s where I`m best  
From the deepest corner of my heart I hope you doing fine  
You`ll always own a special place inside

Girl I want you to know that you`re still on my mind  
And I wonder whereabout your dreams flying out tonight  
And I wish we`ll meet us once again just for a little while  
After all we never said good bye never said

Goodbye goodbye never said  
Goodbye goodbye never said  
Goodbye goodbye
